

Are you a Registered Nurse? Would you like to work per diem where your children go to school or work within your community? Then look no further!

The Denville Township Schools are looking for Registered Nurses to work with our current school nurses as substitutes in all of our schools and for field trips. We will train you on the use of Genesis for nursing notes and the inner workings of each school's health office.

Knowledge of child and adolescent development is beneficial but not required.

(School Nurse Certificate not required for substitutes)
